## Advanced eDiscovery: First set of Graph APIs in Public Preview 68808

The first set of Graph APIs that are available in public preview enables organizations to call the APIs to get a list of cases, read the properties of a case, and create, update, delete and retrieve information on the cases. Similar actions are available for your review set and review set queries. For example, you can automatically apply the auto generated query to filter out duplicate items, or you can automatically apply your own custom query to your review set.

**Records Management: Regulatory record labels****MC222757**

As announced at Ignite, we're introducing the public preview of regulatory record labels which further enhance immutability of labeled items. These new labels prevent metadata changes, records movements, and records versioning. They also block users and administrators from removing a label once applied.

This message is associated with Microsoft 365

"[https://www.microsoft.com/microsoft-](https://www.microsoft.com/microsoft-365/roadmap?filters=&searchterms=63062)

365/roadmap?filters=&searchterms=63062" Roadmap ID 63062.

When this will happenThis feature is available now worldwide.

## Compliance

additions from 64167:

Make an assessment if confident or sensitive data might be exposed via Microsoft Lists to external parties.

## Recommendations

additions from 64167:

You should check in which way the new Microsoft lists feature product fits into your landscape especially in terms of task management another lists. Also, the Microsoft landscape in terms of Microsoft to do and planner should be evaluated.

## Links

64167

## Config Options

additions from 64167:

It is expected that the new Microsoft Lists feature can be disabled in the sub-SKU licensing part or via another switch if not needed.

## Opportunities

additions from 64167:

With Microsoft Lists you can let you use is easily create lists with some logic without a IT or developer involvement.

## Comments

additions from 64167:

Microsoft Lists home (web) and mobile app – Create new lists, share and access recent and favorite lists in one location

Microsoft Teams + Microsoft Lists – Create a new list or embed an existing list directly in a Teams channel - combining lists with side-by-side conversation

Ready-made templates help you get started quickly – Jumpstart common scenarios with preconfigured structure, forms, views, and formatting

Customizable views, smart rules, and sharing keep everyone in sync

## Description

additions from 64167:

Track issues, assets, routines, contacts, inventory and more using customizable views and smart rules and alerts to keep everyone in sync.

We are changing how customized forms work inside SharePoint lists and libraries that will affect tenants using the SharePoint classic experience.

#### Key points

Timing: late October to late November

Roll-out: tenant level

Control type: user control

Action: review and assess by October 25, 2020

**Docu to check** User Knowledge base

#### MS Preperations

This change affects only SharePoint list and form customizations after October 25, 2020.

Therefore, your users need to take action only if they create new classic form customizations after October 25, 2020.

If your users have a list or library forms customized using methods two or three above, they can ensure it continues to fall back to classic by setting an EditFormUrl or NewFormUrl property to point to the existing form URL.

Users can also configure an entire list or library to use classic mode using Advanced settings

Navigate to the list that you want to use classic mode.

Select Settings Gear button and then select List Settings

Select Advanced Settings

Change the "List experience" setting to "Classic experience."

Learn more

"<https://support.microsoft.com/office/differences-between-modern-and-classic-experiences-for-lists-and-libraries-30e1aab0-a5cc-4363-b7f2-09e2ae07d4dc>" Differences between modern and classic experiences for lists and libraries

#### MS How does it affect me

Classic list and library forms support the following customizations:

Set the ContentType.EditFormUrl or ContentType.NewFormUrl properties to point to a custom form URL

Adding a Content editor web part or other web part to the form page

By adding a JSLink to one or more fields that appear on the form

Today, when one of these three customizations exists on a form inside a list or library that's configured to use the "<https://docs.microsoft.com/sharepoint/dev/transform/modernize-classic-sites>" SharePoint modern experience, those forms will continue to render in classic to ensure customizations are visible to all users.

With this change

All customizations in the above list that were in place before October 25, 2020 will continue to render in the classic SharePoint experience.

For customizations created after October 25, 2020: List item one customizations will continue to render in the classic experience

List items two and three customizations will no longer render in the classic experience by default

## Information Governance: Retention for Yammer messages

MC222893

As announced at Ignite, we're

"<https://techcommunity.microsoft.com/t5/microsoft-security-and/what-s-new-in-microsoft-information-governance-and-records/ba-p/1681207>" introducing the public preview of retention policies for Yammer for user and community messages in Yammer.

This message is associated with Microsoft 365

"<https://www.microsoft.com/microsoft-365/roadmap?rtc=1&filters=&searchterms=63064>" Roadmap ID 63064. When this will happen We'll begin gradually rolling this out at the beginning of October and expect it to be complete by early November.

### Linked Item Details

63064 Title : Information Governance: Retention policies for Yammer

63064 Description: Expand support for Yammer messages.

63064 Url : <https://docs.microsoft.com/en-us/microsoft-365/compliance/manage-information-governance?view=o365-worldwide>

### MS Preparations

To leverage retention policies for Yammer messages, make sure that your Yammer Enterprise network is in "<https://docs.microsoft.com/yammer/configure-your-yammer-network/overview-native-mode>" Native Mode.

Once your Yammer network is in Native Mode, go "<https://compliance.microsoft.com/>" Microsoft 365 compliance center and use the Information Governance solution to create a new retention policy for Yammer messages.

### MS How does it affect me

If you are using Yammer Enterprise within your organization and wish to set retention or deletion policies to ensure you're keeping only the data you need in your tenant, you will be able to "<https://docs.microsoft.com/microsoft-365/compliance/create-retention-policies#retention-policy-for-yammer-locations>" target Yammer communities and users with new or existing retention policies.

## Introducing message tags in Message center

MC222899

We are introducing new message tags in Microsoft 365 admin center Message center to enable more granular filtering and help you discover relevant messages. The message tags will be visible in the new Tag column in the list view and in the metadata line below the title on the message detail panel. The existing "Data privacy" label will be absorbed into the new tag system.

This message is associated with Microsoft 365 Roadmap ID

"<https://www.microsoft.com/microsoft-365/roadmap?filters=&featureid=66469>" 66469

When this will happen

We will be rolling this out to Targeted Release in late September. We expect completion of roll out to all customers by the end of October.

## Microsoft Teams: Custom layouts for meetings

66587

Presenters will be able to customize how content shows up for meeting participants, including overlaying their video on content or moving their content box to a corner of the video view - allowing for a more dynamic content viewing experience where presenters can easily direct their audiences' attention through hand gestures and facial cues, without making the viewer choose between the speaker and the content.

## Microsoft 365 admin center: Enhanced management capabilities in Microsoft Defender Antivirus for SMB IT admins

67118

New management capabilities that make it easier for small and medium-sized businesses to get visibility into how Defender Antivirus is protecting the Windows 10 devices in their organizations. From the Microsoft 365 admin center, IT admins will be able to view active threats in their environment, understand which users and devices are affected by them, which of these were blocked or quarantined, and where a review is needed. These admins will also have oversight from one place to see which devices are running Microsoft Defender Antivirus, if those are up to date, and where action is needed. The new capabilities apply to all Windows 10 devices that are enrolled in Microsoft Intune with a Microsoft 365 Business Premium subscription plan.

### **(Udpated) Outlook for Mac: Preview toggle of new experience in Insider Slow**

**MC219576**

Updated September 1, 2020: This message has been updated to ensure it is displaying as intended. There are no changes to the content.

We are releasing the ability to preview the new Outlook for Mac for all Insider Slow users via a toggle that will be turned off by default. Insider Slow users can turn on the "New Outlook" toggle located at the top right of the Outlook window and experience all of the updates. They can switch quickly between the new Outlook for Mac experience and the current version in production.

Note: If your organization does not use Outlook for Mac or users are not part of Insiders Slow you can disregard this message.

The new Outlook for Mac experience has been updated to enhance performance and elevate productivity, is powered by the Microsoft Cloud, and connects using Microsoft sync technology. It brings updates across Mail, Search, and Calendar experiences that are designed for simplicity, reliability, and customization. The updated experience is carefully crafted and specifically designed with the power of Microsoft Services to provide suggestions and insights that are relevant to you, and simplicity to enable you to customize the experience.

This message is associated with Microsoft 365 RoadmapID

"<https://www.microsoft.com/microsoft-365/roadmap?filters=featureid=27287>" 27287

When this will happen

This will be available beginning on July 30, 2020.

"https://docs.microsoft.com/microsoftteams/teams-live-events/what-are-teams-live-events" What are Microsoft Teams live events?

MS How does it affect me

Riverbed, the industry standard in network optimization, will soon support Microsoft 365 customers. You will be able to accelerate Teams traffic to increase workforce productivity.  
This change gives you another CDN provider that you can use for live events in your tenant. Your current selection should not be impacted by this addition.

Organizational branding of Teams custom apps store		MC222261
<div><div>You will soon be able customize the Teams Apps store with your organizational branding for line of business applications in your custom apps store. This message is associated with Microsoft 365 "https://www.microsoft.com/microsoft-365/roadmap?rtc=1filters=searchterms=67111" Roadmap ID 67111. When this will happenThis feature will be available in late September.</div></div>	check before:	09/23/2020

## Microsoft Information Protection: Auto-classification with sensitivity labels in SPO, EXO, OneDrive for gov clouds

67125

Auto-classification with sensitivity labels in OneDrive, SharePoint Online, and Exchange Online will soon be available in GCC and GCC-High environments. Sensitivity labels are central to Microsoft Information Protection, enabling you to label important content to associate it with protection policies and actions like encryption and visual marking. With this release, you can start using sensitivity labels at scale for documents stored on OneDrive and SharePoint Online, and for emails in transit in Exchange Online automatically without manual user input.		check before:	09/30/2020
