

## cloudscout.one what's next CW 39

### Scope: MDM

This report contains items, where the 'check before' dates are in the current month and items with upcoming 'check before' dates for the next two months. This is an update-report containing only new or changed items during CW 39.

This is not intended for consumer use. Please respect the work cloudscout.one put into this and don't publish this and respect the copyright. Thank you.

#### What's next to do Major Items

#### **Intune Plan for Change: Default password setting for Android Enterprise devices**

**MC222592**

In October's release we will be changing the default Required password type setting from "Numeric" to "Device Default" in the device password category for Android Enterprise corporate-owned fully managed, dedicated, and corporate owned personally-enabled (COPE) devices.

check before: **09/29/2020**  
 Status:  
 Created: 09/22/2020  
 Product: Intune  
 Platform: Android, World tenant  
 Scope: MDM, Administration

**Docu to check** Automation / Scripts, Working instructions for IT Support

**MS Preparations** We encourage you to update your documentation to note the change in password settings. Learn more about password device restrictions on Android Enterprise "<https://docs.microsoft.com/mem/intune/configuration/device-restrictions-android-for-work#password>" here.

**MS How does it affect me** This will not impact existing policies. However, newly created device password policies for Android Enterprise corporate-owned fully managed, dedicated, and COPE devices will now default to "Device Default" instead of "Numeric".

## What's New in the Microsoft Intune Service Update for September

MC222603

Your Microsoft Intune account has been updated to the latest service build.

How does this affect me?

You will see the service release number updated in the Tenant Status blade of the Intune console soon. We've introduced some changes that we're excited for you to try out.

What do I need to do to prepare for this change?

Click additional information below to learn more about what's new in this service release. We'll continue to update the What's New page with any features that are released between now and the next monthly service update.

More information on how the Intune service updates each month is in this blog post: "<https://techcommunity.microsoft.com/t5/intune-customer-success/microsoft-intune-service-updates/ba-p/358728>"

## Intune: New Endpoint Security Antivirus reports

MC222596

	check before:	<b>09/29/2020</b>
We are introducing new Microsoft Defender Antivirus reports in the Microsoft Endpoint Manager admin center to help you monitor your devices for status on malware and antivirus states. You will be able to use two new operational reports to see which devices need your attention and two organizational reports to view general antivirus information.	Status:	
	Created:	09/22/2020
	Product:	Defender, Intune, Microsoft 365 admin center
	Platform:	World tenant, Online
	Scope:	Administration, MDM, Security
	Ring:

**Docu to check** Working instructions for IT Support

**More Info URL** <https://aka.ms/new-endpoint-security-av-reports>

**MS Preparations** Familiarize yourself with the new reports and update your documentation if needed. For more information on reporting, see "<https://docs.microsoft.com/mem/intune/fundamentals/reports>" Intune reports and "<https://docs.microsoft.com/mem/intune/protect/endpoint-security>" Manage endpoint security in Microsoft Intune.

**MS How does it affect me** We're adding four new reports for Microsoft Defender Antivirus on Windows 10 in Microsoft Endpoint Manager. These reports include:  
Two operational reports, Windows 10 unhealthy endpoints and Windows 10 detected malware. In Microsoft Endpoint Manager, select Endpoint security > Antivirus.  
Two organizational reports, Antivirus agent status and Detected malware. In Microsoft Endpoint Manager, select Reports > Microsoft Defender Antivirus.  
We encourage you to use these new reports over the legacy Threat Agent Status report which we will be deprecating in the future.  
Learn more about these reports on the blog:  
<https://aka.ms/new-endpoint-security-av-reports>

**Microsoft Teams: Direct guest join for Zoom and WebEx Meetings****68736**

Now Teams Rooms and Zoom Room devices can connect to each other's web meeting experience via embedded web technologies. This is intended to reduce the friction you experience when trying to join calls from external partners or clients who may not be using the same meeting service.

## Microsoft 365 admin center: Enhanced management capabilities in Microsoft Defender Antivirus for SMB IT admins

67118

---

	check before:	<b>11/30/2020</b>
	Status:	<b>In development</b>
New management capabilities that make it easier for small and medium-sized businesses to get visibility into how Defender Antivirus is protecting the Windows 10 devices in their organizations. From the Microsoft 365 admin center, IT admins will be able to view active threats in their environment, understand which users and devices are affected by them, which of these were blocked or quarantined, and where a review is needed. These admins will also have oversight from one place to see which devices are running Microsoft Defender Antivirus, if those are up to date, and where action is needed. The new capabilities apply to all ?Windows 10? devices that are enrolled in ?Microsoft Intune with a Microsoft 365 Business Premium subscription plan.	Created:	09/22/2020
	Product:	Defender, Intune, Microsoft 365 admin center
	Platform:	Windows Desktop, World tenant
	Scope:	Administration, Licensing, MDM
	Ring:	General Availability
