## (Updated) Microsoft Information Protection: Exact Data Match will add support for salt

MC220037

Updated September 24, 2020: We are pleased to announce that this is available for all Standard organizations as applicable. We are in the progress of rolling this out for Government customers. Please see the updated timeline below. Thank you for your patience. Soon, " <a href="https://techcommunity.microsoft.com/t5/microsoft-security-and/new-exact-data-match-edm-classification-helps-you-better-detect/ba-p/793526">https://techcommunity.microsoft.com/t5/microsoft-security-and/new-exact-data-match-edm-classification-helps-you-better-detect/ba-p/793526</a> " Exact Data Match (EDM) will support salt in the data hashing process to improve data security. Key points Microsoft 365 Roadmap ID: " <a href="https://www.microsoft.com/microsoft-365/roadmap?filters=featureid=65207">https://www.microsoft.com/microsoft-365/roadmap?filters=featureid=65207</a> " 65207 Timing: Standard - Complete Government - Complete by early October Action: review and assess	check before: <b>08/14/2020</b> Status: <b>Rolling out</b> Created: 08/08/2020 Product: Microsoft Information Protection Platform: Web, World tenant, Online Scope: Compliance, Security, User, Administration Ring: General Availability

<b>Links</b>	65207
<b>Docu to check</b>	Service Description, Automation / Scripts, Working instructions for IT Support
<b>Linked Item Details</b>	65207 Title : Microsoft Information Protection: Exact Data Match will support SALT in the data hashing process to improve data security 65207 Description: Exact Data Match will support SALT in the data hashing process to improve data security. Adding a random string, known as a SALT, to each data value prior to hashing can make it much more challenging for an attacker to reverse engineer the original values.
<b>MS Preparations</b>	Once the feature is available, " <a href="https://docs.microsoft.com/microsoft-365/compliance/create-custom-sensitive-information-types-with-exact-data-match-based-classification#set-up-the-edm-upload-agent">https://docs.microsoft.com/microsoft-365/compliance/create-custom-sensitive-information-types-with-exact-data-match-based-classification#set-up-the-edm-upload-agent</a> " download and install the appropriate updated EDM Upload Agent (Commercial/GCC, GCC-High, or DoD). Updated Upload Agents will be available when the feature reaches GA. If you had previously hashed, indexed, and uploaded data to the EDM service and are already using EDM and would like to add salt to that hashed data, you will need to re-hash and re-upload that data using the instructions provided on the EDM page. Learn more: " <a href="https://techcommunity.microsoft.com/t5/microsoft-security-and/exact-data-match-upcoming-news/ba-p/1492842">https://techcommunity.microsoft.com/t5/microsoft-security-and/exact-data-match-upcoming-news/ba-p/1492842</a> " Exact Data Match Upcoming News " <a href="https://techcommunity.microsoft.com/t5/microsoft-security-and/implementing-microsoft-exact-data-match-edm-part-1/ba-p/1345360">https://techcommunity.microsoft.com/t5/microsoft-security-and/implementing-microsoft-exact-data-match-edm-part-1/ba-p/1345360</a> " Implementing Microsoft Exact Data Match " <a href="https://techcommunity.microsoft.com/t5/microsoft-security-and/microsoft-information-protection-and-compliance-webinar-page/ba-p/1184481">https://techcommunity.microsoft.com/t5/microsoft-security-and/microsoft-information-protection-and-compliance-webinar-page/ba-p/1184481</a> " Webinar: Exact Data Match (EDM) classification (" <a href="https://aka.ms/MIPC/Video-EDMwebinar">https://aka.ms/MIPC/Video-EDMwebinar</a> " video   " <a href="https://aka.ms/MIPC/Blog-EDMWebinar">https://aka.ms/MIPC/Blog-EDMWebinar</a> " deck/FAQ )
<b>MS How does it affect me</b>	Adding a random string, known as a salt, to each data value prior to hashing can make it much more challenging for an attacker to reverse engineer the original values. Customers can choose to use a custom salt or a random salt that is generated by Microsoft. The data hashed and uploaded for EDM will be more secure through the addition of the salt to the hashing process.

## Introducing the Lists app in Teams

MC220295

We are pleased to launch the Lists app in Microsoft Teams for all Teams clients. This "<https://techcommunity.microsoft.com/t5/microsoft-365-blog/announcing-microsoft-lists-your-smart-information-tracking-app/ba-p/1372233>" feature is related to Microsoft 365 Lists which is accessible via Lists home (MC218031, July 7, 2020).

### Key points

Microsoft 365 "<https://www.microsoft.com/microsoft-365/roadmap?filters=&searchterms=64162>" Roadmap ID 64162

Timing: early September and complete by mid-October 2020

Roll-out: tenant level

Control type: Teams admin control

Action: Review and assess

check before:

**08/20/2020**

Status:

**Launched**

Created:

08/13/2020

Product:

Microsoft Lists, SharePoint,  
Teams

Platform:

Windows Desktop, Online,  
Web, World tenant

Scope:

Administration, User

Ring:

General Availability

Type:

Admin impact,  
New feature,  
User impact

Tenant:

## Compliance

additions from MC218031:

Make an assessment if confident or sensitive data might be exposed via Microsoft list to external parties.

## Recommendations

additions from MC218031:

You should check in which way the new Microsoft lists feature product fits into your landscape especially in terms of task management another lists. Also, the Microsoft landscape in terms of Microsoft to do and planner should be evaluated.

## Links

64162,MC218031

## Config Options

additions from MC218031:

It is expected that the new Microsoft list feature can be disabled in the sub-SKU licensing part or via another switch if not needed.

## Opportunities

additions from MC218031:

With Microsoft lists you can let you use is easily create lists with some logic without a TI or developer involvement.

## Comments

additions from MC218031:

Microsoft Lists home (web) and mobile app – Create new lists, share and access recent and favorite lists in one location

Microsoft Teams + Microsoft Lists – Create a new list or embed an existing list directly in a Teams channel - combining lists with side-by-side conversation

Ready-made templates help you get started quickly – Jumpstart common scenarios with preconfigured structure, forms, views, and formatting

Customizable views, smart rules, and sharing keep everyone in sync

## Description

additions from MC218031:

Track issues, assets, routines, contacts, inventory and more using customizable views and smart rules and alerts to keep everyone in sync.

## Linked Item Details

64162 Title : Microsoft Lists - Lists app in Microsoft Teams - built on SharePoint

64162 Description: Team members will be able to both create new lists and add existing ones as tabs in Teams' channels. The new Lists app in Microsoft Teams can be accessed by clicking "+" to add a new tab, and then select "Lists" to get started.

64162 Url : <https://aka.ms/TheIntrazone>

MC218031 Title : (Updated) Introducing Microsoft Lists home (web)

## MS Preparations

This feature ships default ON; Lists is pre-installed for all Teams users and is available directly in the tab gallery of every team and channel.

Teams admins can control the availability of the app using

"<https://docs.microsoft.com/microsoftteams/teams-app-permission-policies>" app permission policies.

Consider notifying your end users about the availability of the Lists App and update your end user training and documentation should you enable this for your tenant.

## MS How does it affect me

The Lists app in Microsoft Teams brings lists in team SharePoint sites into the collaboration and teamwork canvas of channels and facilitates conversations around list items. With this app, end users can work on their favorite lists from within Teams.

After adding the Lists app, users can carry out all functions of Microsoft Lists (home) and SharePoint lists, including adding/editing columns, filtering, sorting, formatting, and exporting to Excel.

Create a new list which will reside in the team site, and pin the list to the channel tab

Pin any existing list they have access to the (the or a) tab

Start a channel conversation about a list item after clicking the list to see a full stage view.

Lists created using the Lists app and Lists created in SharePoint are identical.

Platform:	Online, World tenant
Scope:	Security, User, Administration
Ring:	

Updated September 22, 2020: We have updated this post to ensure it is displaying as intended.

Office has introduced a modern and OAuth based authentication mechanism in Office 2016 and Microsoft 365 Apps for enterprise Win32 clients. Modern auth has been the default way of authentication in Office apps since the release of Office 365 ProPlus, more than 4 years ago. We however allowed customers to override this behavior by setting a regkey EnableADAL to 0 so that they could continue to use the legacy form of authentication against Microsoft 365 resources like SharePoint. This legacy form of authentication was powered by a library called IDCRL. It should be noted that the legacy form of authentication for Exchange Online is basic auth, which is different from IDCRL.

Our data suggests that less than 1% of commercial/organization users have overridden the default setting and are still using IDCRL for authentication purposes in Microsoft 365 Apps for enterprise. Modern auth is a more secure way of signing-in. It also allows additional security features like AAD conditional access using multi-factor authentication and device compliance and policies around them.

We are going to remove support for IDCRL library in newer builds of Microsoft 365 Apps for enterprise so that applications like Word, Excel, PowerPoint, OneNote will always use modern authentication with Microsoft 365 resources. This change will not impact Outlook, which uses basic authentication to communicate with Exchange when the EnableADAL regkey is set to 0.

Key points:

Major: Retirement

Timing:

Starting with Current Channel of Microsoft 365 Apps for enterprise version 2010

Semi-Annual Enterprise Channel (Preview) starting version 2102 in March 2021

Semi-Annual Enterprise Channel in July 2021.

Action: No action, this is for awareness

Type:	User impact	Tenant:

## List creation from templates Visual refresh in SharePoint sites

MC222600

List creation from SharePoint sites will get a visual refresh and users will get the additional capability to create lists from eight built-in templates. These updates are already part of the Microsoft Lists app and Lists in Teams rollouts – we are bringing the same goodness to SharePoint sites too.

### Key points:

Microsoft 365 Roadmap ID: "<https://www.microsoft.com/en-us/microsoft-365/roadmap?rtc=1%26filters=&searchterms=67137>" 67137

Timing: Targeted release: Gradually rolling out end of September through mid-October

Standard release: Gradually rolling out mid-October through end of October

Rollout type: Tenant level

Action: Review, assess and educate

Here are some useful resources for admins as well as end users:

"<https://support.microsoft.com/en-us/office/list-templates-in-microsoft-365-62f0e4cf-d55d-4f89-906f-4a34e036ded1>" List templates in Microsoft 365: this article details all the templates available for list creation.

"<https://support.microsoft.com/en-us/office/create-a-list-from-a-template-70b008a2-7a3d-4223-83d8-345e0313974d>" Create a list from a template: this article details the process of creating a list from a template.

"<https://support.microsoft.com/en-us/office/create-a-list-in-sharepoint-0d397414-d95f-41eb-addd-5e6eff41b083>" Create a list in SharePoint: this article shows the visual updates that will come with this feature rollout.

**MS How does it affect me** Two changes are part of this feature rollout.  
Users will now be able to create lists from eight built-in templates from SharePoint sites (from site contents or from the site homepage).  
Existing list creation flows will be visually refreshed to align with the updates that users are already seeing as part of the Microsoft Lists app and Lists in Teams.

## Push notifications for work accounts in Microsoft To Do

MC222629

Microsoft To Do mobile will soon support push notifications for shared list activities on work accounts. If you do nothing, when this feature rolls out, users in your organization will receive push notifications in the Windows, Android, and iOS versions of To Do for shared list activities such as task added, task completed, and task updated.

### Key points

Microsoft 365 "<https://www.microsoft.com/microsoft-365/roadmap?filters=searchterms=67114>" Roadmap ID 67114

Timing: administration control available on September 22, 2020

Roll-out: tenant level

Control type: admin control

**Linked Item Details** 67114 Title : Microsoft To Do: Support for push notifications for shared list activities for work and school accounts

67114 Description: This update adds the ability to create Microsoft To Do push notifications in Work and School accounts just as you can in your Personal account.

**MS Preperations** The admin toggle will be accessible on September 22, 2020. You should review it to ensure that it is set to the experience appropriate for your organization. Any changes may take up to 24 hours to go into effect.

Should you enable this feature in your tenant, you might want to update your training and documentation.

To review or change the setting, go the Microsoft 365 admin center.

Navigate to Settings > Org settings

Under Services, select Microsoft To Do

Select the box next to Allow your users to receive push notifications for shared list activities to turn push notifications on or off.

**MS How does it affect me** This feature will be enabled unless you take action before Monday, October 19, 2020. On that date, users in your organization will receive push notifications for shared list activities.

**Image**

**Image**

As communicated in MC217999 (July '20), with the continued investment in Power Automate as the universal solution to workflow, Microsoft is retiring SharePoint 2010 workflows.

Additionally, we will begin implementing a new banner (example text below) that will be displayed on multiple workflow pages to remind users about the upcoming retirement.

"Starting November 1, 2020 6:00:00 AM, SharePoint 2010 workflows will be retired and users will no longer have the ability to run or create 2010 Workflows. The date displayed in the banner applies to your specific organization. For general dates and information about retirement, visit ["https://aka.ms/sp-workflows-support"](https://aka.ms/sp-workflows-support) style="" https://aka.ms/sp-workflows-support"

Key Points:

Major: Retirement

Timeline:

Starting August 1st, 2020, SharePoint 2010 workflows will be turned off for any newly created tenants.

Starting November 1st, 2020, Microsoft will remove the ability to run, or create, and or execute SharePoint 2010 workflows from existing tenants.

Action: Review and assess impact

check before: **09/29/2020**

 Created: 09/23/2020  
 Product: Power Automate, SharePoint  
 Platform: Developer, Online, World tenant  
 Scope: Administration, Developer, User  
 Ring:

Type:

Tenant:

**Links** MC217999

**Linked Item Details** MC217999 Title : Retiring SharePoint 2010 Workflows

**MS Preparations** You will want to notify your users, workflow developers and site owners. Update your user training and prepare your help desk.

For admins:

Use the ["https://docs.microsoft.com/en-us/sharepoint/dev/transform/modernize-scanner"](https://docs.microsoft.com/en-us/sharepoint/dev/transform/modernize-scanner)

SharePoint Modernization Scanner tool to scan your tenants for legacy workflow usage.

Review the guidance for ["https://aka.ms/sp-workflows-guidance"](https://aka.ms/sp-workflows-guidance) migrating from classic workflows to Power Automate flows.

Review the ["https://flow.microsoft.com/en-us/"](https://flow.microsoft.com/en-us/) Power Automate resources as a solution to legacy workflows.

Learn more

Detailed ["https://aka.ms/sp-workflows-support"](https://aka.ms/sp-workflows-support) support article and with additional resources.

**MS How does it affect me** If your organization still uses SharePoint 2010 workflows, they will no longer function after November 1st, 2020. SharePoint 2013 workflows will remain supported, although turned off by default for new tenants starting November 1st, 2020. We recommend customers to move to Power Automate or other supported solutions.

## Reminder: Retirement of legacy eDiscovery tools

MC222624

As originally announced in MC200104 (January '20) we will be retiring legacy eDiscovery tools soon.

When this will happen

There are several key dates for this retirement and we're now approaching the October 1, 2020 milestone.

In-Place eDiscovery and Holds in the Exchange admin center (EAC)

July 1, 2020: You won't be able to create new searches and holds, but you can still run, edit, and delete existing searches at your own risk.

Microsoft Support will no longer provide assistance for In-Place eDiscovery Holds in the EAC.

October 1, 2020: The In-Place eDiscovery Holds functionality in the EAC will be placed in a read-only mode. This means you'll only be able to remove existing searches and holds.

\*-MailboxSearch cmdlets

July 1, 2020: You won't be able to use the New-MailboxSearch cmdlet to create new In-Place eDiscovery searches and In-Place Holds, but you can still use the other cmdlets to run, edit, and delete existing searches and holds at your own risk. Microsoft Support will no longer provide assistance for these types of searches and holds.

October 1, 2020: As previously stated, the In-Place eDiscovery Holds functionality in the EAC will be placed in a read-only mode. This also means that you won't be able to use the New-MailboxSearch, Start-MailboxSearch, or Set-MailboxSearch cmdlets. You'll only be able to get and remove existing searches and holds.

For more information, please see "<https://docs.microsoft.com/en-us/microsoft-365/compliance/legacy-ediscovery-retirement?view=o365-worldwide>" Retirement of legacy eDiscovery tools.

## Linked Item Details

MC200104 Title : (Updated) Retirement of Exchange Admin Center In-Place eDiscovery and Holds

MC200104 Url : <https://docs.microsoft.com/microsoft-365/compliance/legacy-ediscovery-retirement>

MC200104 Info Url : <https://docs.microsoft.com/microsoft-365/compliance/overview-ediscovery-20>

## More Info URL

<https://docs.microsoft.com/microsoft-365/compliance/legacy-ediscovery-retirement>

## MS Preparations

Migrate all usage to Microsoft 365 eDiscovery or appropriate alternatives. These are described at: "<https://docs.microsoft.com/en-us/microsoft-365/compliance/legacy-ediscovery-retirement>" Retirement of legacy eDiscovery tools. If you're interested in migrating existing In-Place eDiscovery searches and holds to the Microsoft 365 compliance center, please see "<https://docs.microsoft.com/en-us/microsoft-365/compliance/migrate-legacy-ediscovery-searches-and-holds?view=o365-worldwide>" Migrate legacy eDiscovery searches and holds to the Microsoft 365 compliance center.

## MS How does it affect me

Any holds created by using In-Place eDiscovery Holds in the EAC (or by using the corresponding cmdlet) will continue to preserve data. In-Place eDiscovery searches and holds can be removed at any time.

---

## **(Updated) Office Scripts to be enabled by default**

**MC221139**

Updated September 18, 2020: We have updated the title to more accurately reflect the state of the change. Additionally, we have provided more details about the timeline. We apologize for any confusion. Thank you for your feedback.

In January, we released Office Scripts, a feature that enables users to automate their repetitive tasks in Excel Online, for public preview. We are now transitioning from public preview to making Office Scripts available by default for your organization.

### Key points

Microsoft 365 "<https://www.microsoft.com/microsoft-365/roadmap?filters=searchterms=61687>" Roadmap ID 61687

Timing: The admin control is available now

Targeted release admin control enforcement has begun

Standard release admin control enforcement begins October 1, 2020

Roll-out: tenant level

Control type: admin control (available now)

Action: Standard release, review and assess by October 1, 2020

check before:	<b>10/01/2020</b>
Status:	<b>Rolling out</b>
Created:	08/29/2020

**Docu to check** Service Description, Automation / Scripts, Working instructions for IT Support, User Knowledge base

**Linked Item Details** 61687 Title : Excel: Office Scripts for task and workflow automation in Excel  
61687 Description: In January, we released Office Scripts, a feature that enables users to automate their repetitive tasks in Excel Online, for public preview. The feature will now be available by default to all M365 Enterprise, Business, and EDU SKUs that have access to the O365 desktop apps.  
61687 Url : <https://support.microsoft.com/en-us/office/introduction-to-office-scripts-in-excel-9f9be283d-adb8-4f13-a75b-a81c6baf163a>

**MS Preperations** This feature ships default On. If you would like to disable this feature, you need to act by October 1, 2020.

If you would like to "https://docs.microsoft.com/microsoft-365/admin/manage/manage-office-scripts-settings" manage how Office Scripts is used in your organization, go to the M365 admin center, select Settings > Org settings. Then, select Office Scripts to view the Office Scripts admin controls. These controls will be available on August 31, 2020.

To block Office Scripts use in your tenant, deselect 'Let users automate their tasks in Office on the web'. This will hide the Automate tab for everyone in your tenant.

This feature is on by default. Should you disable and then wish to enable the feature, select 'Let users automate their tasks in Office on the web'. The global admin can choose to either allow all users access or create a specific group of users who have access to Office Scripts.

Once the 'Let users with access to Office Scripts share their scripts with others in the organization' checkbox is selected, the global admin can also choose whether or not a user can share scripts within an organization. No external sharing is allowed.

Note:

If your organization is not currently opted-in to the Office Scripts public preview experience, these controls will only affect Targeted Release users until the change is released to the rest of the organization.

Learn more: "https://docs.microsoft.com/microsoft-365/admin/manage/manage-office-scripts-settings" Manage Office Scripts settings

**MS How does it affect me** "https://support.microsoft.com/office/introduction-to-office-scripts-in-excel-9f9be283d-adb8-4f13-a75b-a81c6baf163a" Office Scripts is an automation platform in Excel Online that allows users in your organization to create and record scripts to automate their repetitive workflows. With this change, the feature will be available by default for your organization unless you take action.

## Quick Edit: fixed row height, row selection, and visual updates in SharePoint lists and document libraries

MC216574

In SharePoint document libraries and lists, we are releasing three new features in the Quick Edit experience.

Fixed row height, "<https://www.microsoft.com/microsoft-365/roadmap?filters=searchterms=64867>">Roadmap ID 64867

Row selection, "<https://www.microsoft.com/microsoft-365/roadmap?filters=searchterms=64868>">Roadmap ID 64868

Visual updates, "<https://www.microsoft.com/microsoft-365/roadmap?filters=searchterms=64871>">Roadmap ID 64871

When this will happen

These three features will roll out to Targeted Release customers from the end of June through mid-July.

These feature will roll to Standard Release customers from mid-July to mid-September.

## Outlook mobile: S/MIME improvements and delegate permissions

MC220427

For Outlook mobile clients, Microsoft is adding automatic signing and automatic message encryption using Secure Multipurpose Internet Mail extensions (S/MIME) as well as providing end user options to extend delegate mailbox permissions.

These updates are related to Microsoft 365 roadmap IDs

"https://www.microsoft.com/microsoft-

365/roadmap?filters=searchterms=67271" 67271,

"https://www.microsoft.com/microsoft-

365/roadmap?filters=searchterms=67272" 67272 (S/MIME) and

"https://www.microsoft.com/microsoft-

365/roadmap?filters=searchterms=67273" 67273,

"https://www.microsoft.com/microsoft-

365/roadmap?filters=searchterms=67274" 67274 (delegate permissions).

When this will happen

Rollout for auto sign and auto encrypt with S/MIME will begin at the end of August and be complete by the end of September.

Rollout for delegate mailbox permissions for end users will begin in early September and be complete by the end of September.

<b>Linked Item Details</b>	<p>67271 Title : Outlook for iOS: Automatic signing and encryption  67271 Description: User setting to enable all messages to be automatically signed and encrypted using Secure Mobile Internet Mail extensions (S/MIME).</p> <p>67272 Title : Outlook for Android: Automatic signing and encryption  67272 Description: User setting to enable all messages to be automatically signed and encrypted using Secure Mobile Internet Mail extensions (S/MIME).</p> <p>67273 Title : Outlook for Android: End user options for Delegate permissions  67273 Description: You can extend permissions to have your delegate manage email and calendar events on your behalf by granting permission to read, create, change or delete items in your folders. Colleagues who have delegate permissions can add a Delegate Mailbox account to Outlook for Android.</p> <p>67274 Title : Outlook for iOS: End user options to extend Delegate Permissions  67274 Description: You can extend permissions to have your delegate manage email and calendar events on your behalf by granting permission to read, create, change or delete items in your folders. Colleagues who have delegate permissions can add a Delegate Mailbox account to Outlook for iOS.</p>
<b>MS Preperations</b>	<p>The S/MIME user settings ship default Off.</p> <p>Administrators can use their mobile device management solution to require always sign and/or always encrypt with an app configuration policy on devices that are either enrolled or not enrolled. Microsoft Intune will include this option at the at the end of September.</p> <p>You might want to update user documentation and training.</p>
<b>MS How does it affect me</b>	<p>For organizations that use S/MIME for added security for email, this release allows users to set the S/MIME setting to “Always sign” and / or “Always encrypt”.</p> <p>After a user enables this setting, they will no longer have to manually set each email to be signed and encrypted.</p> <p>Valid S/MIME certificates are required to send signed and encrypted emails.</p> <p>Outlook mobile users can now grant delegate inbox permissions from within Outlook for iOS and Android.</p> <p>Users can set a delegate mailbox in order to allow others to take actions on their behalf.</p> <p>This release also adds the ability for users that have been granted folder level permissions from other Outlook endpoints to view those folders in Outlook mobile.</p> <p>These enhancements now complete our offering with shared and delegate mailbox scenarios. Organizations can enable access to another person’s mailbox using FullAccess permissions or users can grant others access to their mailboxes using Delegate permissions.</p>

## Search Yammer using the Teams Communities app

MC222246

Users will soon be able to search for Yammer content within the Yammer Communities app for Microsoft Teams

This message is associated with Microsoft 365

"https://www.microsoft.com/en-us/microsoft-365/roadmap?filters=searchterms=64691" Roadmap ID 64691.

When this will happen

We will begin rolling this out to users at the end of September and expect to complete the rollout by the end of October.

**Linked Item Details** 64691 Title : Yammer: Search from the Communities app in Teams  
64691 Description: Search Yammer communities and content from within the Communities app in Teams.

**MS Preparations** Share this news with users at your organization, and consider pinning the Communities app alongside Chats and Teams.

**MS How does it affect me** While using the Teams app, your users will be able to search all of Yammer or content within a specific community, including posts, communities, and profiles. The search works just as it does in the new Yammer, without the need to leave Teams.

**Image**

## **(Update) Teams meetings, end of meeting notification**

**MC222346**

Updated September 24, 2020: To ensure the best possible experience for our users, we are delaying some of our deployments to reduce the amount of change flowing into the services. Please see the updated roll-out timeline below

We will soon be alerting Teams meeting participants when there are five minutes remaining in a scheduled meeting.

This message is associated with Microsoft 365

"<https://www.microsoft.com/microsoft-365/roadmap?filters=searchterms=67122>" Roadmap ID 67122.

When this will happen

We will begin the rollout in late September (previously mid-September) and expect it to be complete in early October (previously late September).

**Linked Item Details** 67122 Title : Microsoft Teams: End-of-meeting notifications  
67122 Description: Microsoft Teams will automatically issue a 5-minute warning when the meeting is nearing a close - it will be triggered for all scheduled private, and channel meetings.

**MS Preperations** You might consider updating your end user training and documentation.  
The notification cannot be configured or disabled in the admin portal.

**MS How does it affect me** Once available in your tenant, Teams will alert participants when there are five minutes remaining during any scheduled private or channel meeting. The notification will appear on screen for 10 seconds and disappear without any user action.

## New Power Automate app for Teams

MC222580

A new Power Automate app will soon become available to eventually replace the existing Flow app in the Microsoft Teams app store. We announced that Microsoft Flow would become Power Automate at Ignite 2019.

This message is associated with Microsoft 365

"<https://www.microsoft.com/microsoft-365/roadmap?filters=searchterms=68120>" Roadmap ID 68120.

When this will happenThe new app will be available in the Teams app store beginning the end of September 2020.

**Docu to check** User Trainings, User Knowledge base

**Linked Item Details** 68120 Title : Microsoft Teams: Microsoft Teams and Power Automate - Simpler automation for everyone  
68120 Description: A new Power Automate app for Teams will make creating and using automation simpler than ever. New workflow templates will be made available, and using those templates to build automation will become easier with a simplified editor experience.

**MS Preparations** Become familiar with Power Automate triggers and actions, in particular those that impact Teams. Consider updating any user documentation and training specific to Flow and educate your organization about how Power Automate can be used in Teams. You can disable the Power Automate app in the Teams Admin Center under Teams apps > Permission Policies, similar to other apps in Teams. Learn more:  
"https://docs.microsoft.com/connectors/teams/" Connectors in Microsoft Teams (preview)  
"https://docs.microsoft.com/power-automate/flows-teams" Create a flow in Teams  
"https://docs.microsoft.com/power-automate/" Microsoft Power Automate documentation  
"https://docs.microsoft.com/powerapps/" Power Apps documentation  
"https://flow.microsoft.com/blog/" Power Automate blog  
"https://preview.flow.microsoft.com/connectors/shared\_teams/microsoft-teams/" Teams + Power Automate

**MS How does it affect me** The Power Automate app helps users build automation in Teams through more accessible and discoverable workflow templates. In addition, users can more easily customize templates to specific, user-defined, automation scenarios. Power Automate is a service for automating workflow across the growing number of apps and SaaS services that business users rely on.

#### Mock up of Power Automate

## Microsoft Whiteboard introduces per user licensing

MC222821

Microsoft Whiteboard, which is automatically enabled for most Microsoft 365 tenants, will soon read licenses at a user level. There's no change to how Microsoft Whiteboard is managed at the tenant level. If you do not use Whiteboard in your tenant, you can disregard this message. This message is associated with Microsoft 365 "https://www.microsoft.com/microsoft-365/roadmap?filters=searchterms=66761" Roadmap ID 66761. When this will happen This feature will be enabled mid-October.

check before: **10/01/2020**  
Status: **In development**  
Created: 09/25/2020  
Product: Azure Active Directory, Whiteboard  
Platform: World tenant, Online  
Scope: Administration, User, Licensing  
Ring: General Availability  
Type: Admin impact, New feature, User impact

**Links** 66761

**Docu to check** Service Description, Automation / Scripts, Working instructions for IT Support

**Linked Item Details** 66761 Title : Whiteboard: Per user licensing  
66761 Description: Tenant admins will be able to use licenses to enable or disable access to Whiteboard at an individual user level, instead of only at the global tenant level. These licenses currently exist in tenants today, but are not used for enablement.

**MS Preperations** There is no change to your current Microsoft Whiteboard tenant setting. User licenses are enabled by default.  
If you wish to use per user licensing, "https://docs.microsoft.com/azure/active-directory/fundamentals/license-users-groups" you can assign or remove licenses in the Azure Active Directory portal.  
Learn more: "https://support.microsoft.com/office/enable-microsoft-whiteboard-for-your-organization-1caaa2e2-5c18-4bdf-b878-2d98f1da4b24" enable Microsoft Whiteboard for your organization.

**MS How does it affect me** We are introducing the ability to control access to Whiteboard at the user level. These licenses currently exist in tenants, but they have not used for enablement.  
With this change, Whiteboard will read licenses at both the tenant and user level and will block individual access should you disable a user license.

---

## Forms: New Forms Start Page

67143

This update replaces the existing Forms Portal page at Forms.office.com with a new Forms Start page at Office.com (Office.com - Forms). Users who access forms via office.com will get this experience first, then users accessing forms via forms.office.com will get the experience soon after.

**Microsoft Search: Use, view, and manage your personal query history**

**67133**

Microsoft Search is the intelligent search experience in Microsoft 365. We're improving Microsoft Search, adding a new option to view and manage your personal query history. With personal query history, you'll see your recent queries as you begin typing in the search box to help you get back to insights and information you recently used or accessed so you'll no longer have to bookmark your queries or memorize the right query to get you back to where you were. Your personal query history can be managed through your Office 365 My Account settings. New My Account privacy controls allow you to delete your query history or download your query history for future reference.

## New Bing Industry News with Microsoft Search

57071

Industry news gives you a targeted set of news content specific to their company and industry. In addition, it offers access to news content for free, that would otherwise be behind a paid subscription wall, such as Wall Street Journal and more.

Updated September 1, 2020: This message has been updated to ensure it is displaying as intended. There are no changes to the content. We are releasing the ability to preview the new Outlook for Mac for all Insider Slow users via a toggle that will be turned off by default. Insider Slow users can turn on the “New Outlook” toggle located at the top right of the Outlook window and experience all of the updates. They can switch quickly between the new Outlook for Mac experience and the current version in production.

Note: If your organization does not use Outlook for Mac or users are not part of Insiders Slow you can disregard this message.

The new Outlook for Mac experience has been updated to enhance performance and elevate productivity, is powered by the Microsoft Cloud, and connects using Microsoft sync technology. It brings updates across Mail, Search, and Calendar experiences that are designed for simplicity, reliability, and customization. The updated experience is carefully crafted and specifically designed with the power of Microsoft Services to provide suggestions and insights that are relevant to you, and simplicity to enable you to customize the experience.

This message is associated with Microsoft 365 RoadmapID

"https://www.microsoft.com/microsoft-365/roadmap?filters=featureid=27287" 27287

When this will happen

This will be available beginning on July 30, 2020.

<b>Linked Item Details</b>	27287 Title : Outlook for Mac: New user experience across email, search and calendar 27287 Description: Delivers the option to preview updates coming to Outlook for Mac that enhance performance and user experiences across email, search and calendar. Includes capabilities that are based on intelligent technology such as suggested replies and Meeting Insights. Architected using the Microsoft sync technology.
<b>More Info URL</b>	<a href="https://techcommunity.microsoft.com/t5/outlook-blog/introducing-the-new-outlook-for-mac/ba-p/936884">https://techcommunity.microsoft.com/t5/outlook-blog/introducing-the-new-outlook-for-mac/ba-p/936884</a>
<b>MS Preparations</b>	There’s nothing you need to do to prepare for this change, but you may consider updating your user handbooks and notifying your helpdesk. If you would like to change your organization’s enrollment in Insider Slow you can do so following the instructions "https://insider.office.com/en-us/join/mac" here.
<b>MS How does it affect me</b>	All Mac users that are enrolled in the Insider Slow ring will see a “New Outlook” toggle on the upper right hand side of their Outlook window, which will be off by default. They can select the toggle in order to turn on the new experience and simply select it again when they would like to return to the current version.

<b>Docu to check</b>	Working instructions for IT Support
<b>Linked Item Details</b>	<p>66185 Title : Advanced eDiscovery: Supporting linked content from OneDrive and SharePoint Online (modern attachments)</p> <p>66185 Description: To help streamline discovery of linked content, Advanced eDiscovery natively groups linked content from OneDrive and SharePoint Online in the same family as the original Outlook email or Teams and Yammer chat message—streamlining the process of collecting, reviewing, and exporting the related content without additional configuration.</p>
<b>MS Preperations</b>	<p>Ask the Advanced eDiscovery manager in your organization to review this new functionality in a pre-production tenant and to determine how your organization might use this enhanced document retrieval in its investigations.</p> <p>Learn more:</p> <p>"<a href="https://docs.microsoft.com/microsoft-365/compliance/add-data-to-review-set#define-options-to-scope-your-collection-for-review">https://docs.microsoft.com/microsoft-365/compliance/add-data-to-review-set#define-options-to-scope-your-collection-for-review</a>" Define options to scope your collection for review</p> <p>"<a href="https://techcommunity.microsoft.com/t5/microsoft-security-and/improving-ediscovery-workflows-and-enhancing-your-forensic/ba-p/1696658">https://techcommunity.microsoft.com/t5/microsoft-security-and/improving-ediscovery-workflows-and-enhancing-your-forensic/ba-p/1696658</a>" Improving eDiscovery workflows and enhancing your forensic investigations</p>
<b>MS How does it affect me</b>	<p>Advanced eDiscovery in Microsoft 365 provides an end-to-end workflow to preserve, collect, review, analyze, and export data that's responsive to your organization's internal and external investigations.</p> <p>When Advanced eDiscovery administrators and managers use the Search tool to identify relevant documents, they can add those search results to a review set.</p> <p>Exchange 2016 introduced document collaboration that allowed on-premises users to integrate attachments stored on OD/SPO directly into email sent from Outlook on the web. Document collaboration is now supported by all Outlook clients. Rather than attach a file to an email, users insert a link to a file that is stored in OD/SPO. This feature is often called modern attachments, and it reduces storage demands on the Exchange server. However, because these files are stored outside of the Exchange server, until now they were not included in a collection and review set. Your Advanced eDiscovery team now has three options for collecting the results of a search into a review set (pre-existing or new):</p> <p>Conversational review set (beta) Select this to see email and chat enabled as threaded conversations.</p> <p>Enable retrieval for modern attachment Select this to review documents referenced in Outlook as a modern attachment (a link to a SPO/ODB source) as well as any SPO/ODB documents that are included as a link in Outlook or Teams.</p> <p>Include versions from SharePoint Select this to make a copy of all versions of a SharePoint file per the version limits and search parameters of the collection.</p>

## Microsoft Information Protection: Auto-classification with sensitivity labels in SPO, EXO, OneDrive for gov clouds

67125

Auto-classification with sensitivity labels in OneDrive, SharePoint Online, and Exchange Online will soon be available in GCC and GCC-High environments. Sensitivity labels are central to Microsoft Information Protection, enabling you to label important content to associate it with protection policies and actions like encryption and visual marking. With this release, you can start using sensitivity labels at scale for documents stored on OneDrive and SharePoint Online, and for emails in transit in Exchange Online automatically without manual user input.

## Compliance

additions from 64167:

Make an assessment if confident or sensitive data might be exposed via Microsoft Lists to external parties.

## Recommendations

additions from 64167:

You should check in which way the new Microsoft lists feature product fits into your landscape especially in terms of task management another lists. Also, the Microsoft landscape in terms of Microsoft to do and planner should be evaluated.

## Links

64167

## Config Options

additions from 64167:

It is expected that the new Microsoft Lists feature can be disabled in the sub-SKU licensing part or via another switch if not needed.

## Opportunities

additions from 64167:

With Microsoft Lists you can let you use is easily create lists with some logic without a IT or developer involvement.

## Comments

additions from 64167:

Microsoft Lists home (web) and mobile app – Create new lists, share and access recent and favorite lists in one location

Microsoft Teams + Microsoft Lists – Create a new list or embed an existing list directly in a Teams channel - combining lists with side-by-side conversation

Ready-made templates help you get started quickly – Jumpstart common scenarios with preconfigured structure, forms, views, and formatting

Customizable views, smart rules, and sharing keep everyone in sync

## Description

additions from 64167:

Track issues, assets, routines, contacts, inventory and more using customizable views and smart rules and alerts to keep everyone in sync.

## Linked Item Details

64167 Title : Microsoft Lists - calendar view - built on SharePoint

64167 Description: Visualize any list with items that use date column information in a calendar view.

64167 Url : <https://aka.ms/MSLists>

## MS Preparations

Consider updating your training and user documentation.

"<https://techcommunity.microsoft.com/t5/microsoft-365-blog/announcing-microsoft-lists-your-smart-information-tracking-app/ba-p/1372233>" Learn more about Microsoft Lists.

## MS How does it affect me

The view list has a new new option, Create new view, which gives users the option to view as list or as a calendar.

We are changing how customized forms work inside SharePoint lists and libraries that will affect tenants using the SharePoint classic experience.	Status:	
Key points	Created:	09/26/2020
Timing: late October to late November	Product:	SharePoint
Roll-out: tenant level	Platform:	Online, World tenant
Control type: user control	Scope:	UI, User, Developer
Action: review and assess by October 25, 2020	Ring:	
	Type: Feature update, User impact	Tenant:

**Docu to check** User Knowledge base

**MS Preparations** This change affects only SharePoint list and form customizations after October 25, 2020. Therefore, your users need to take action only if they create new classic form customizations after October 25, 2020.

If your users have a list or library forms customized using methods two or three above, they can ensure it continues to fall back to classic by setting an EditFormUrl or NewFormUrl property to point to the existing form URL.

Users can also configure an entire list or library to use classic mode using Advanced settings

Navigate to the list that you want to use classic mode.

Select Settings Gear button and then select List Settings

Select Advanced Settings

Change the "List experience" setting to "Classic experience."

Learn more

"<https://support.microsoft.com/office/differences-between-modern-and-classic-experiences-for-lists-and-libraries-30e1aab0-a5cc-4363-b7f2-09e2ae07d4dc>" Differences between modern and classic experiences for lists and libraries

**MS How does it affect me** Classic list and library forms support the following customizations:

Set the ContentType.EditFormUrl or ContentType.NewFormUrl properties to point to a custom form URL

Adding a Content editor web part or other web part to the form page

By adding a JSLink to one or more fields that appear on the form

Today, when one of these three customizations exists on a form inside a list or library that's configured to use the "https://docs.microsoft.com/sharepoint/dev/transform/modernize-classic-sites" SharePoint modern experience, those forms will continue to render in classic to ensure customizations are visible to all users.

With this change

All customizations in the above list that were in place before October 25, 2020 will continue to render in the classic SharePoint experience.

For customizations created after October 25, 2020:List item one customizations will continue to render in the classic experience

List items two and three customizations will no longer render in the classic experience by default

## Outlook for Mac: Shared Mailboxes

68824

A shared mailbox makes it easy for a group of people to monitor and send email from the same email alias. When a person in the group replies to a message sent to the shared mailbox, the email appears to be from the shared address, not from the individual user.

## Microsoft Teams: Collaborative Calling

68770

Collaborative calling enables customers to connect a call queue to a channel in Teams. Users can collaborate and share information in the channel while taking calls in the queue. This feature is ideal for scenarios such as an IT help desk or HR hotline. IT admins can quickly connect call queues to specific channels, and team owners can manage the settings.

## Microsoft Lists - undo / redo

68810

As you work across rows and columns within Microsoft Lists, mistakes will happen and it needs to be easy to recover information. Similar to how you can remove sentences and phrases in a Word document, you will be able to do this in Lists by using the undo button. The same is true in reverse if there was something in a field previously that you want to bring back - just click the redo button.
