(Updated) New Power Platform features coming to Teams

MC219363

Updated September 11, 2020: We have updated the content below to provide additional information.
We are adding new "https://powerplatform.microsoft.com/" Power Platform features to make it easier for customers to create, deploy and manage key business apps and chatbots directly within Microsoft Teams.
This message is associated with Microsoft 365 "https://www.microsoft.com/microsoft-365/roadmap?filters=searchterms=66407" Roadmap ID 66407.
When this will happen
The rollout will begin in mid-September (previously mid-August) and be complete by the end of September (previously August).

Linked Item Details	66407 Title : Microsoft Teams: Microsoft Oakdale in Teams
	66407 Description: Select Microsoft 365 and Office 365 subscriptions that include Power Apps and Power Automate are expanding with the introduction of Microsoft Project Oakdale– a built-in, flexible datastore supporting relational, image and file data with a one-click experience for deploying solutions natively in Teams. With Project Oakdale, Power Apps capabilities included in select Microsoft 365 and Office 365 licenses will expand to provide an integrated app studio for users to build and deploy custom apps within Teams. Similarly, Power Virtual Agents capabilities are being introduced to Teams. Users will now be able to build and deploy custom chatbots in Project Oakdale environments directly within Teams. New Power Automate capabilities will also be available in Teams, including the ability to trigger flows directly from Teams messages.

MS Preperations	Once this update is complete, you will see new service plans – Microsoft Project Oakdale and Power Virtual Agents for Teams – in the list of plans included with your subscription. These changes will not impact other features in your subscription, besides what is mentioned above. However, you may consider updating your internal documentation to reflect these additional capabilities, as needed.
	The following admin controls are available in Teams Admin center to enable/disable the new functionality in public preview –
	App permissions policies: Admins can turn the Power Platform maker/builder experience off or on in Teams by selecting Power Apps and/or Power Virtual Agents applications available under 'Microsoft Apps'. This setting is available for a specific set of users or for the tenant all up.
	Note: Admins can turn the Power Platform one-click deployment experience off or on in Teams by selecting Shared Power Apps and/or Shared Power Virtual Agents applications available under 'Microsoft Apps'. This setting is available for a specific set of users or for the tenant all up.
	More information on App permissions policies can be found here: "https://docs.microsoft.com/en-us/microsoftteams/teams-app-permission-policies" Manage app permission policies in Microsoft Teams
	Existing Power Platform functionality within Office 365 remains unchanged.
	Learn more at the "https://techcommunity.microsoft.com/t5/microsoft-teams-blog/microsoft-teams-is-shaping-the-future-of-work-with-low-code-apps/ba-p/1507180" Microsoft Teams blog.
MS How does it affect me	Select Microsoft 365 and Office 365 subscriptions that include Power Apps and Power Automate are expanding with the introduction of Microsoft Project Oakdale – a built-in, flexible datastore supporting relational, image and file data with a one-click experience for deploying solutions natively in Teams.
	Your users will be able to access these public preview features in Teams beginning in mid-September.
	With Project Oakdale, Power Apps will provide an integrated app studio that lets users build and deploy custom apps within Teams.
	Your end users will also be able to build and deploy custom chatbots in Teams with the introduction of Power Virtual Agents.
	We are also adding Power Automate capabilities, including the ability to trigger flows directly from Teams messages.
	This new Power Platform functionality for Teams is included at no additional cost with your Microsoft 365 and Office 365 licenses. Existing Power Platform functionality available for use in Office 365 more broadly outside of Teams remains unchanged.

Reminder: Retiring SharePoint 2010 Workflows

check before:	**09/29/2020**
Status:	
Created:	09/23/2020
Product:	Power Automate, SharePoint
Platform:	Developer, Online, World tenant
Scope:	Administration, Developer, User
Ring:	

As communicated in MC217999 (July '20), with the continued investment in Power Automate as the universal solution to workflow, Microsoft is retiring SharePoint 2010 workflows.

Additionally, we will begin implementing a new banner (example text below) that will be displayed on multiple workflow pages to remind users about the upcoming retirement.

"Starting November 1, 2020 6:00:00 AM, SharePoint 2010 workflows will be retired and users will no longer have the ability to run or create 2010 Workflows. The date displayed in the banner applies to your specific organization. For general dates and information about retirement, visit "https://aka.ms/sp-workflows-support" style="" https://aka.ms/sp-workflows-support"

Key Points:

Major: Retirement

Timeline:

Starting August 1st, 2020, SharePoint 2010 workflows will be turned off for any newly created tenants.

Starting November 1st, 2020, Microsoft will remove the ability to run, or create, and or execute SharePoint 2010 workflows from existing tenants.

Action: Review and assess impact

Linked Item Details	MC217999 Title : Retiring SharePoint 2010 Workflows		
MS Preperations	You will want to notify your users, workflow developers and site owners. Update your user training and prepare your help desk. For admins: Use the "https://docs.microsoft.com/en-us/sharepoint/dev/transform/modernize-scanner" SharePoint Modernization Scanner tool to scan your tenants for legacy workflow usage. Review the guidance for "https://aka.ms/sp-workflows-guidance" migrating from classic workflows to Power Automate flows. Review the "https://flow.microsoft.com/en-us/" Power Automate resources as a solution to legacy workflows. Learn more Detailed "https://aka.ms/sp-workflows-support" support article and with additional resources.		
MS How does it affect me	If your organization still uses SharePoint 2010 workflows, they will no longer function after November 1st, 2020. SharePoint 2013 workflows will remain supported, although turned off by default for new tenants starting November 1st, 2020. We recommend customers to move to Power Automate or other supported solutions.

New Power Automate app for Teams

check before:	**09/28/2020**
Status:	**In development**
Created:	09/22/2020
Product:	Power Automate, Teams
Platform:	World tenant, Online
Scope:	Administration, User
Ring:	General Availability

A new Power Automate app will soon become available to eventually replace the existing Flow app in the Microsoft Teams app store. We announced that Microsoft Flow would become Power Automate at Ignite 2019.

This message is associated with Microsoft 365 "https://www.microsoft.com/microsoft-365/roadmap?filters=searchterms=68120" Roadmap ID 68120.

When this will happenThe new app will be available in the Teams app store beginning the end of September 2020.

Docu to check	User Trainings, User Knowledge base
Linked Item Details	68120 Title : Microsoft Teams: Microsoft Teams and Power Automate - Simpler automation for everyone 68120 Description: A new Power Automate app for Teams will make creating and using automation simpler than ever. New workflow templates will be made available, and using those templates to build automation will become easier with a simplified editor experience.
MS Preperations	Become familiar with Power Automate triggers and actions, in particular those that impact Teams. Consider updating any user documentation and training specific to Flow and educate your organization about how Power Automate can be used in Teams. You can disable the Power Automate app in the Teams Admin Center under Teams apps > Permission Policies, similar to other apps in Teams. Learn more: "https://docs.microsoft.com/connectors/teams/" Connectors in Microsoft Teams (preview) "https://docs.microsoft.com/power-automate/flows-teams" Create a flow in Teams "https://docs.microsoft.com/power-automate/" Microsoft Power Automate documentation "https://docs.microsoft.com/powerapps/" Power Apps documentation "https://flow.microsoft.com/blog/" Power Automate blog "https://preview.flow.microsoft.com/connectors/shared_teams/microsoft-teams/" Teams + Power Automate
MS How does it affect me	The Power Automate app helps users build automation in Teams through more accessible and discoverable workflow templates. In addition, users can more easily customize templates to specific, user-defined, automation scenarios. Power Automate is a service for automating workflow across the growing number of apps and SaaS services that business users rely on. Mock up of Power Automate
